

*Bird flu has reached the shores of the UK while MRSA cases have spiralled in our hospitals. Is a human bird flu pandemic a real possibility? What about MRSA – can it be controlled? Should the UK be doing more to prevent infectious diseases or does it call for a global solution?*

*Pocket Issue, Pandemics takes a look under the covers and finds out if a major outbreak of an infectious disease is a real cause for concern.*

#### Also from Pocket Issue

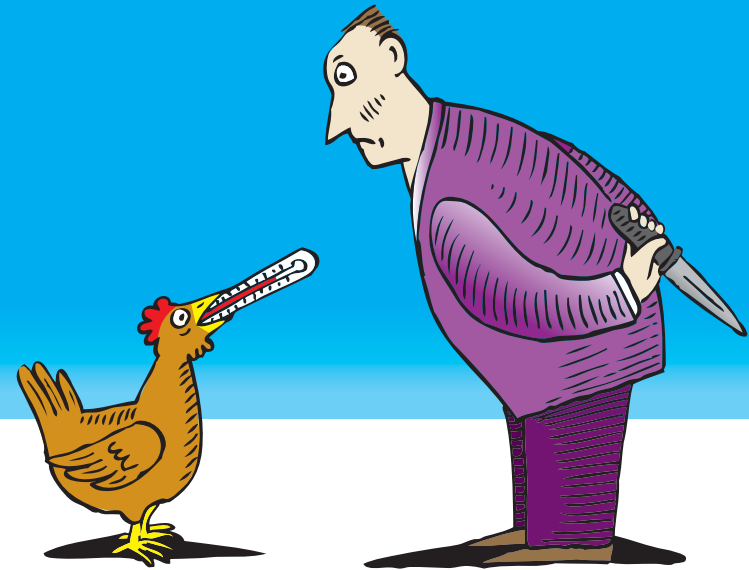

*"For everyone who longs to be well-informed but lacks the time (or attention span)." Alex Clark, The Observer*

Pocket Issue – the big global issues covered in under 100 pages. Know your facts with our pithy pocket primers.
